NEWSPAPER ARCHIVE®

O. C. POWNING, EDITOR AND PROPRIETOR

RAILBOAD BANBUFFCISS IN 1879 .- The Railway Age publishes an interesting article on railway foreclosure sales during 1879. It gives a list of cixty-siz railroads sold, with a mileage of 4,900 miles, representing \$163.000,000 in bonds and debt, and \$80,000,000 capital stock, being \$243,000,000 of capital investment affected. In 1878 there were 48 roads reported sold, in 1877 there were 54, and in 1876 thirty. A total of the last four years of 197 roads, with a mileage of 16,500 miles, and a capital investment of \$972,000,000, which have been brought to the auction block. This is about one-fifth of the entire railway mileage and capital of the United States. The Age remarks, however, that very few new foreclosure suits were begun during the year, showing that the era of bankruptcy is ended. It reports only six roads placed in the hands of receiverr, against 27 in 1878, 38 in 1877, and 42 in 1876.

PROFESSIONS IN CONGRESS.—A statement recently completed shows that of the 76 members of the United States Senate 59 are practising lawyers, and that no less than 219 out of the total 293 members of the House are also lawyers. Besides these there are in the House 25 merchants, 5 bankers, 3 capitalists, 5 manufacturers, 12 farmers, 2 millers, 1 stonecutter (Murch of Maine) the workings now open is estimated at 4 editors, 6 physicians, 2 teachers and 2 about \$6,000,000; and when the whole millers, 1 stonecutter (Murch of Maine) ministers (De la Matyr of Indiana and thirty acres shall have been cleared of Anderson of Kansas, formerly of San Francisco and Stockton.) In the Sen- 000,000. ate, besides the lawyers, there are 8 merchants or other business men, 4 planters or farmers, 1 doctor, 1 editor, 1 banker, 1 mine owner and operator and one Senator of no profession or business unless it be politics.

The negro exodus from Dixie is again attracting the attention of the press, and of philanthropists in general. The colored race is certainly dissatisfiedespecially those living in the Lower Valley of the Mississippi. In Arkansas they are selling off their mules, pigs and poultry-even at "ruinous prices," preparatory to a journey northward. Southern politicians try to ignore this emigration, and simply say "the niggers ere discontented." But there must be some oppression, social or legal, to cause such a general stampede of the ex-slaves.

Our sympathies are with Mr. Wood in his clash with Secretary Sherman, about the rate of interest to be placed on the Government bonds which are to be issued during the next year and a half. There are \$800,000,000 in bonds which are about due and which must be taken up and replaced. Sherman says bonds of less than four per cent, cannot be sold at par, Wood says he knows the whole amount can be taken up with bonds drawing only three and a half per cent. interest. The difference amounts to about \$4,000,000 per annum, and should be saved if possible.

A meeting of the Republican State Central Committee of California will be held at the Golden Eagle Hotel, Sacramento, rooms Nos. 9 and 10, on Tues day, January 13th, 1880, at 2 o'clock P. M. The attendance of every member is earnestly requested, as business of the utmost importance to the organization will be presented for consideration.

Since 1870 there have been over 100 persons killed in Christian county, Kentucky, and but one of the slayers, a negro, has been punished. Truly Christian is one of the bloediest spots on the population without irrigation, but necessary or proper in the premises. dark and bloody ground. There have been nine men killed in the county since August 1st, and not one of the murderers is in jail! What a feast for a Vigilance Committee!

Gen. Garfield has been chosen Sena tor by the Ohio Republicans. His absence from the House will be felt, his promotion to the Senate was well deserved. There are few better or brighter men in the service of the Government than Jas. A. Garfield.

The inaugural address of Gov. Perkins, of California, is a document worthy of the head and heart of that gentleman. We are more than ever con- together, told them, through an interfirmed in our belief that Geo. Perkins preter a lot of trash about the Great unable to see the ceremenies, being at will make the best Executive our sister State has ever had.

to be President, Sherman to retain his to accept the supplies which were all present place, and either Conkling, Cameron or Blaine to have the Vice Presidency. Then everything will be levely and the goose elevated still higher.

The application of Alf. Chartz for pardon will be presented to the Board on the 13th instant. We hope it will be granted, for reasons heretofore given in

YIELD.

Colorado has come up rapidly as a bullion producer. Mr. Valentine estimates the yield of that State last year Legislature, from which we extract the at over \$14,000,000. Gold was discovered there in 1859, and the product question: down to the close of 1878 was \$81,018,-Valentine's figures for 1879 are \$14,413,500, being an average of conflicting B. F. Tuttle, a gentleman well and reports. Eastern writers look upon favorably known throughout the State 900, including \$9,820,700 for 1878. Mr. Colorado as likely soon to take the leading place in the bullion States. A New York paper puts the case as follows, with extra favorable mention of a cer-

tain mine in Leadville District: When the placers of California failed, the Comstock vein was discovered; and when, after having produced over \$300,-000,000, its shafts have reached a depth of 2,500, or 3,000 feet in search of ore bodies which cannot be found, and when more dollars are put into the mines than can be got out, the laws of nature as well as of economy demand a new field for enterprise, and the Leadville carbonate mines surprise the country. To these mines Colorado is indebted for her increase of over \$6,000,000 in 1879, and to them the country now looks for the silver bullion which the Comstock

can no longer supply.

Take the Little Pittsburg for example, with its consolidated properties, the New Discovery, Winnemuck, Davis and Union, comprising in all thirty acres. Every foot of this area is probably un-derlaid with from four to thirty-five feet of solid mineral in nearly horizontal layers, at a depth of from sixty to 200 feet below the surface, and every ton of ore has an average net value of \$75. The ore is easily mined without the expense of extensive hoisting and pump-ing machinery; and the bullion is extracted by the simple process of smelt-The value of the ore exposed in mineral, a very moderate estimate fixes the net output at not less than \$60,-

The Consolidated Virginia and the California, the great "bonanza" mines of the Comstock Lode, paid in divi-dends in 1879, \$1,350,000 and 1,620,-000 respectively. The Little Pittsburg group of mines since August, 1878, have vielded to their owners, mainly in development work and opening the mines, about \$2,000,000. After the consolidation in April 1879, and since May 5th, the dividends declared amount to \$850, 000, and the surplus created in the same period amounts to \$200,000, or a total of \$1,050,000. In other words, the Little Pittsburg Consolidated, with its shares selling at \$30, pays on its current market value more than 20 per cent. per annum. If the owners cared for the present than the future, the dividends might be greatly increased by exhausting the reserves, but divi-dends declared from development work solely pay best in the end.

IDAHO.

The Governor of Idaho, M. Brayman, has submitted his annual report to the Secretary of the Interior. He states that the progress of the past year has been in every way encouraging; mines, farms and every interest having developed beyond expectation.

Idaho, which extends from the northern line of Nevada and Utah in lat. 42 be fixed with reference to producing a degrees north, to the British Posses- sufficient sum: sions, lat. 49 degrees, covers a length of 410 miles, and its width is 257 miles at the southern end, narrowing down to 60 miles on the north. The Snake river forms its western boundary for 150 most blountains separate Idaho from Montans. Wyoming lies on the east. Idaho, at first including all the region north of Utah and east of Oregon, has been reduced by the formation of other Territories, until it now comprises 86, 294 square miles, equal to 55,228,160 acres, of which 15,000,000 acres are capable of cultivation now; 12,000,000 to the commission shall intelligently and containing the construction of the few popular remedies receiving the approval of medical to a reasonable return equally with capital invested in other enterprises. The public, however, has a right to demand that the transportation companies shall intelligently and that the transportation companies shall intelligently and the capital invested in other enterprises. The public, however, has a right to demand that the transportation companies shall intelligently and the public received that the transportation companies shall intelligently and the few popular remedies receiving the approval of medical to a reasonable return equally with caprical invested in other enterprises. The public, however, has a right to demand the transportation companies shall intelligently and the transportation of public, however, has a right to demand the transportation of public, however, has a right to demand the transportation of the transportation of the transportation of the transportation of public, however, has a right to demand the transportation of t 000 acres are grazing lands; 8,000,000 the people. acres are mining tracts, and nearly Idaho resembles Oregon and Washington, and is capable of sustaining a heavy middle and southern Idaho' do not have sufficient rains. The San Francisco Bulletin makes a much more lengthy summary of the report, but we have not room for it. The Great Northwest 'boom' however, is still booming,

WHERE DOES THE MONEY Go. eral Stoneman says that \$1,500,000 is the father of the present Lord Beaconsannually expended in the purchase of field, was not a Jew at heart. That supplies for Indians on this coast. this theory is altogether erroneous is Where has this money gone to? Very shown by the following anecdote: little in the way of supplies has been issued to the majority of the Indians in reform synagogue of British Jews in this State and Nevada. To those In- London, January 27th, 1842, the late dians who remain on reservations scanty Mr. Moses Mocatta gave a donner in rations have been issued, but nothing honor of the event. Among the guests to the nomadic Indians excepting that was Mr. Isaac Disraeli, who had been at intervals of three or four years an present at the consecration of the syna-agent has called bands of these Indians gogue, and had followed the services Father at Washington and doled them few flimsy blankets and cumberstone iron pots. Indians capable of earning The latest political racket is for Grant have laughed at the agent and refused ter of the new synagogue. The converbut worthless .- [Stock Report.

> A few days ago, J. W. Jackson of Nevada City accidentally put a giantpowder cartridge into a stove with some papers, and an explosion followed, which, says the Transcript, sent the store lids flying toward the ceiling.

COLOBADO AND THE BULLIGH THE CALIFORNIA RAILMOAD

The retiring Governor of California, Wm. Irwin, submitted a message to the following, bearing upon the railroad

Under the Act of April 1, 1878, creat ing the office of Transportation Comfor his integrity and ability, Transportation Commissioner. He has, with great energy and assiduity, devoted himself to the duties of his office. The transactions of his office, and the results of his study and investigation of the problems connected with the transpor-tation of the State, he has embodied in a report, which, in pursuance of law, he will present to the Legislature.

140 Chinamen at work on the ditch and The lateness of the hour at which I was able to obtain a copy of the printed report has prevented me from making close examination of its contents.

The railroad question is one of the most important as well as one of the most difficult ones with which we have

Under the new Constitution, however, the power over railroad and other transportation companies, which, under the old, was vested exclusively in the Legislature, is transferred mainly to the Railroad Commussion.

The power of the State to prescribe what transportation companies may charge for their services, where such power has not been surrendered by contract with the companies, is no longer open to question. The decision of the open to question. The decision of the Supreme Coult of the United States, in the Granger cases, so-called, has settled that question finally and forever.

This State, in the most formal and authoritative manner which it is possible for a State to adopt, has declared her intention to exercise this power. This declaration was made in the adoption of the new Constitution.

The Supreme Court of the United States, in the Granger cases, decided not merely that a State possessed the power to prescribe what transportation companies may charge for carrying pas-sengers and freight, but that this power is essentially a legislative power; that the Legislature may prescribe in advance what the companies may charge, and that when the Legislature has once exercised this high legislative preroga-tive, no alternative is left to the com-

panies but to obey.

The new Constitution has created a Commission, in which is vested the legislative power to prescribe what transportation companies shall charge for their services, which, under the old Constitution belonged to the Legislature alone, and which, perhaps, belonged to the Legislature in every other State in Union. Under the old Constitution, the Legislature possessed the power to prescribe rates for transportation, but it was left to the discretion of the Legislature whether it could exercise this pow-er or not. No such discretion is left to the Commission created by the new The language of the Constitution is:
"The Commissioners shall have the power, and it shall be their duty, to establish rates of charges for the transportation of passengers and freight by railroad or other transportation com-panies." The State has declared that her power in the premises shall be exercised.

1 Now, on what principle should the Commission proceed in prescribing the rates which transportation companies may charge? Manifestly the rates should

First—To pay operating expenses. Second—To keep the roads, equipments, etc., in repairs.

Third—To pay a reasonable interest on the money actually invested in the construction and equipment of the road,

acres can eventually be irrigated; 5,000,- earnestly attempt to do exact justice between the transportation companies and

The Legislature will, I have no doubt, 5,000,000 are worthless desert. Northern render to the Commission, in the discharge of their very onerous and responsible duties, all the aid in its power, by enacting such laws as may be deemed

WHY DISRAELI LEFTTRE SYNAGOGUE.

We have heard many explanations of the circumstances which led to the secession of the Disraeli family from the synagogue, and some of them are based on the theory that Mr. Isaac Disracli,

On the occasion of the opening of the with much satisfaction, although he was that time entirely blind. Mr. Disracti was seated at the tuble between Mr. (afterwards Sir) Francis H. Goldsmid sation naturally turned upon the synagogue and its prospects, and Mr. Dis-raeli, turning to Rev. Prof. Marks, said: "If we had only had such a house of worship in our time, my family would never have left the synagogue." -[Jewish Times.

Last week, says the l'imes, Dan Murphy, the land and cattle king of Sin Jose, left the depot in that city with A thousand tons of wheat have been Jose, left the depot in that cary warm shipped from Dixon the past two weeks sixteen head of imported thoroughbreds and only two thousand tons now remain the warehouse.

am a Distinguished Physician.

O single discusse has entailed more suffering or a house of the breaking up of the constitution and attract. The source of smell, of taste, of sight, those ag is ha human voice, the mind, one or more not some times a sily yield to hadestructive influence. The power is distributed by the most take a very visal force, and breaks up the most tobert of constitutions. Ignored because but little a lass couldy most physicians, impotently samiled by quacks and charlatans, those suffering from it have little hope to be relieved of it this side of the grave. It is then, thus, that the popular treatment of this terrible disease by remedies within the reach of all pessed it to bands at once competent and trustworthy. The new and hitherto natified on those sloped by Dr. Sanford in the preparation of his Randors Cours, has won my hearty approval. I believe it likely to succeed when all the usual remedies fail, because it strikes at the root of the disease, viz., the oxidited blood while it heats the disearch membrane by direct application to the nearly passage. Its action is based on certain fixed raise, and naless the vital forces are too far exhausted, must, in the great majority of case, effect active.

LAND SLIDE.

Trains Delayed on the C. P. R. R.

A slide occurred on the mountains, yesterday which will detain all trains from the West to-day.

Reform Club.

The following programme has been prepared for the Reform Club this even-Song by the Club; recitation, Fannie all purchasers, so great is the reduction Flanagan; duet, Misses Loomis; recita- that has been made. However, he has ence Ringo; address, Mr. E. W. Hay- and he does not wish to be caught with Tilton; reading, Mrs. Jeuvey; trio, at their own prices. White Cook and Parks.

The Gas Works.

A great deal of good work has been done by the Reno Gas Co. lately, and our citizens have no idea of the trouble the Co. has been to to keep the town lighted with good gas. A few days ago the works were thoroughly overhauled and cleaned; a lot of tar was found in pipes where no tar should have been. Since Mr. Leete has been in charge he has worked night and day in making improvements, the result of which is manifest in the quality of the gas now

The Austin Reveille announces its willingness to stand in on the proposition to provide the State an Insane Asylum. When there are enough others who realize that it is better to spend \$60,000 per appum at home, than to give it to Langdon & Clark, of Stockton. then we expect the State will have an Asylum.

Auditor Laughton, of the V. & T. R. R., was in town yesterday, paying off at this end of the road. The pay-roll averages from \$35,000 to \$50,000 monthly.

Jas. Bradley is building a large wagon shop on the lot north of L. Demers store.

We had wind enough the other day to blow up a bigger storm than this.

Monday.

Sierra Valley.

Sierra Valley is beyond doubt one of the richest mountain gardens in the taining 45,857 acres of farming land. Assessed value real estate, 1878, \$13,-485; improvements, \$81,570; personal property, \$118,274; total, \$303,329. Tons of delicious marketable butter are annually churned (in places by water as Virginia City. The hay, oats and barley crop is usually good. Many of the farmers are well-to-do, owning handsome residences with beautiful gardens and orchards. The land is watered by numerous streams, alive with mountain trout. Stock raising is one of the leading industries. The waters of Webber Lake are now brought into the valley by means of ditches and flumes, miles in length, furnishing ample facilities for irrigation. In Winter snow falls to Is the most effective Pain Destroyer in the world States. There are four towns in the and Beckwith. C. C. Darling's stage preparation. line affords easy and rapid communicaiion with Truckee, and G. Q. Buxton's with Jamison and Plumss Eureka Mine. immigrants of limited capital. Far above the clouds, 7,000 feet above the sea. lies a beautiful sheet of water-Independence Lake-three miles long by three-quarters of a mile in width-a lovely pleasure resort, much frequented during the Summer, where the thermometer is only 78 degrees, while it is vallevs."

Storm in the Mountains.

Passengers by the lightning express which crossed the Sierras Wednesday night represent the storm there as something awful. While it continued nothing more terrible was ever known there. made the train tremble, and at times, when it swept up some canyon and took it in the face, caused it to stand still for a second or two, even on a down grade.

Chance For A Good Loan. Truckee Lodge, No. 14, I. O. O. F. of Reno, wants to negotiate a loan of \$25,000 on its fine building and property, the loan to run for 10 years at 10 per cent. per annum, and the loan not to be charged during its life, \$2,000 of payable semi-annually and the property fully covered by insurance. This is better than Government bonds at 4 per cent. Our exchanges will confer a favor on the JOULNAL by copying this.

The Days of 1880.
